A lifelong learner with a strong belief in personal development. I am enthusiastic about all things relating to Software Development. From Frontend, Backend development, App Containerization to managing Kubernetes clusters. Over the years, I acquired skills and abilities to work in a dynamic and fast changing environment.

Top Skills

- **Frontend Development** – With Google for Africa Development Scholarship, GADS2019, I learnt Angular Framework for Frontend Development.
- **Backend Development** – with a 5+ years' experience in web development using PHP (Laravel) I am proficient in building powerful APIs.
- **DevOps** – At SUSE CLOUD NATIVE SCHOLARSHIP 2021, I learnt application containerization and management of Kubernetes clusters. I have since then invested in Cloud Architecture using Google Cloud Platform GCP.
